

The Royal Marsden Manual of Clinical Nursing Procedures

Online Edition • Tenth Edition

Excellence in nursing care

Introducing the NEW 10th edition of The Royal Marsden Manual of Clinical Nursing Procedures - one of the world's most popular resources on clinical skills and procedures for nurses and the brand new Cancer Manual!

Key features for nurses

The Royal Marsden Manual provides detailed procedure guidelines based on the latest research findings and expert clinical advice, helping you to deliver clinically effective patient-focused care. Highlights include:

- Flexible access - designed for smartphones, tablets and desktops – giving you access to content wherever suits you best
- Search function - a brand-new search engine to find procedures faster than ever before
- Can support you through the CPD process
- Brand new videos clearly showing step by step procedures
- Includes access to both the Professional Edition and the brand new Cancer Manual

Using The Royal Marsden Manual Online

Access via:

- Shibboleth
- Referrer URL - check your intranet
- IP
- Generic username and password

Trouble logging in?

Please contact your library for full details

Search:

- Once logged in you can use the search box to look for your procedure or topic OR you can click on procedures, chapters or illustrations and you will see a full list which you can click on
- There is 350 clinical procedures within the manual. Each procedure gives you step-by-step instructions on actions that need to be taken with the patient, plus any equipment needed. One of the great features is you can also see the rationale - why you're doing what you're doing

“The Royal Marsden Manual Online is an accessible and user-friendly tool that has been a huge asset to our organisation. It has provided a central resource that has been pivotal in the orientation and training of new and overseas nurses. It provides evidence-based support at your fingertips. This resource isn't only for nurses; many junior doctors and medical students regularly refer to it for step-by-step tips on practical procedures they are learning to master”

Sian Collier-Jones, Chief Nursing Office,
MedCare Hospitals and Medical Centres, UAE
